IMPACT NATION

March 27 – April 6, 2024

Documentation of SID Israel Members' Contributions to International Development and Humanitarian Action Through Captivating Images at the PHOTO IS:RAEL 11th International Photography Festival

Step into the world of **'Impact Nation'** as we share SID Israel members' contributions to international development and humanitarian action, showcased through captivating images at the PHOTO IS:RAEL 11th International Photography Festival.

The paired exhibitions offer a reflection on Israeli humanitarian and development organisations dedicated to making a difference locally and globally.

One focused on Israeli organisations in international development and humanitarian efforts, highlighting the work of our partners worldwide. The other shed light on Israeli international development and humanitarian community response to the October 7th Hamas Attacks and the War in Gaza.

Within the pages of this booklet, we offer a glimpse into the resilience, dedication, and profound impact of these organisations on communities near and far.

These exhibitions are made possible through a partnership between SID-Israel and PHOTO IS:RAEL.

SID ISRAEL

Society for International
Development

SID-Israel: Uniting the Israeli International Development and Humanitarian Ecosystem to Drive Global Change, with 1,000 members: civil society organizations, private companies, state institutions, academic forums and more.

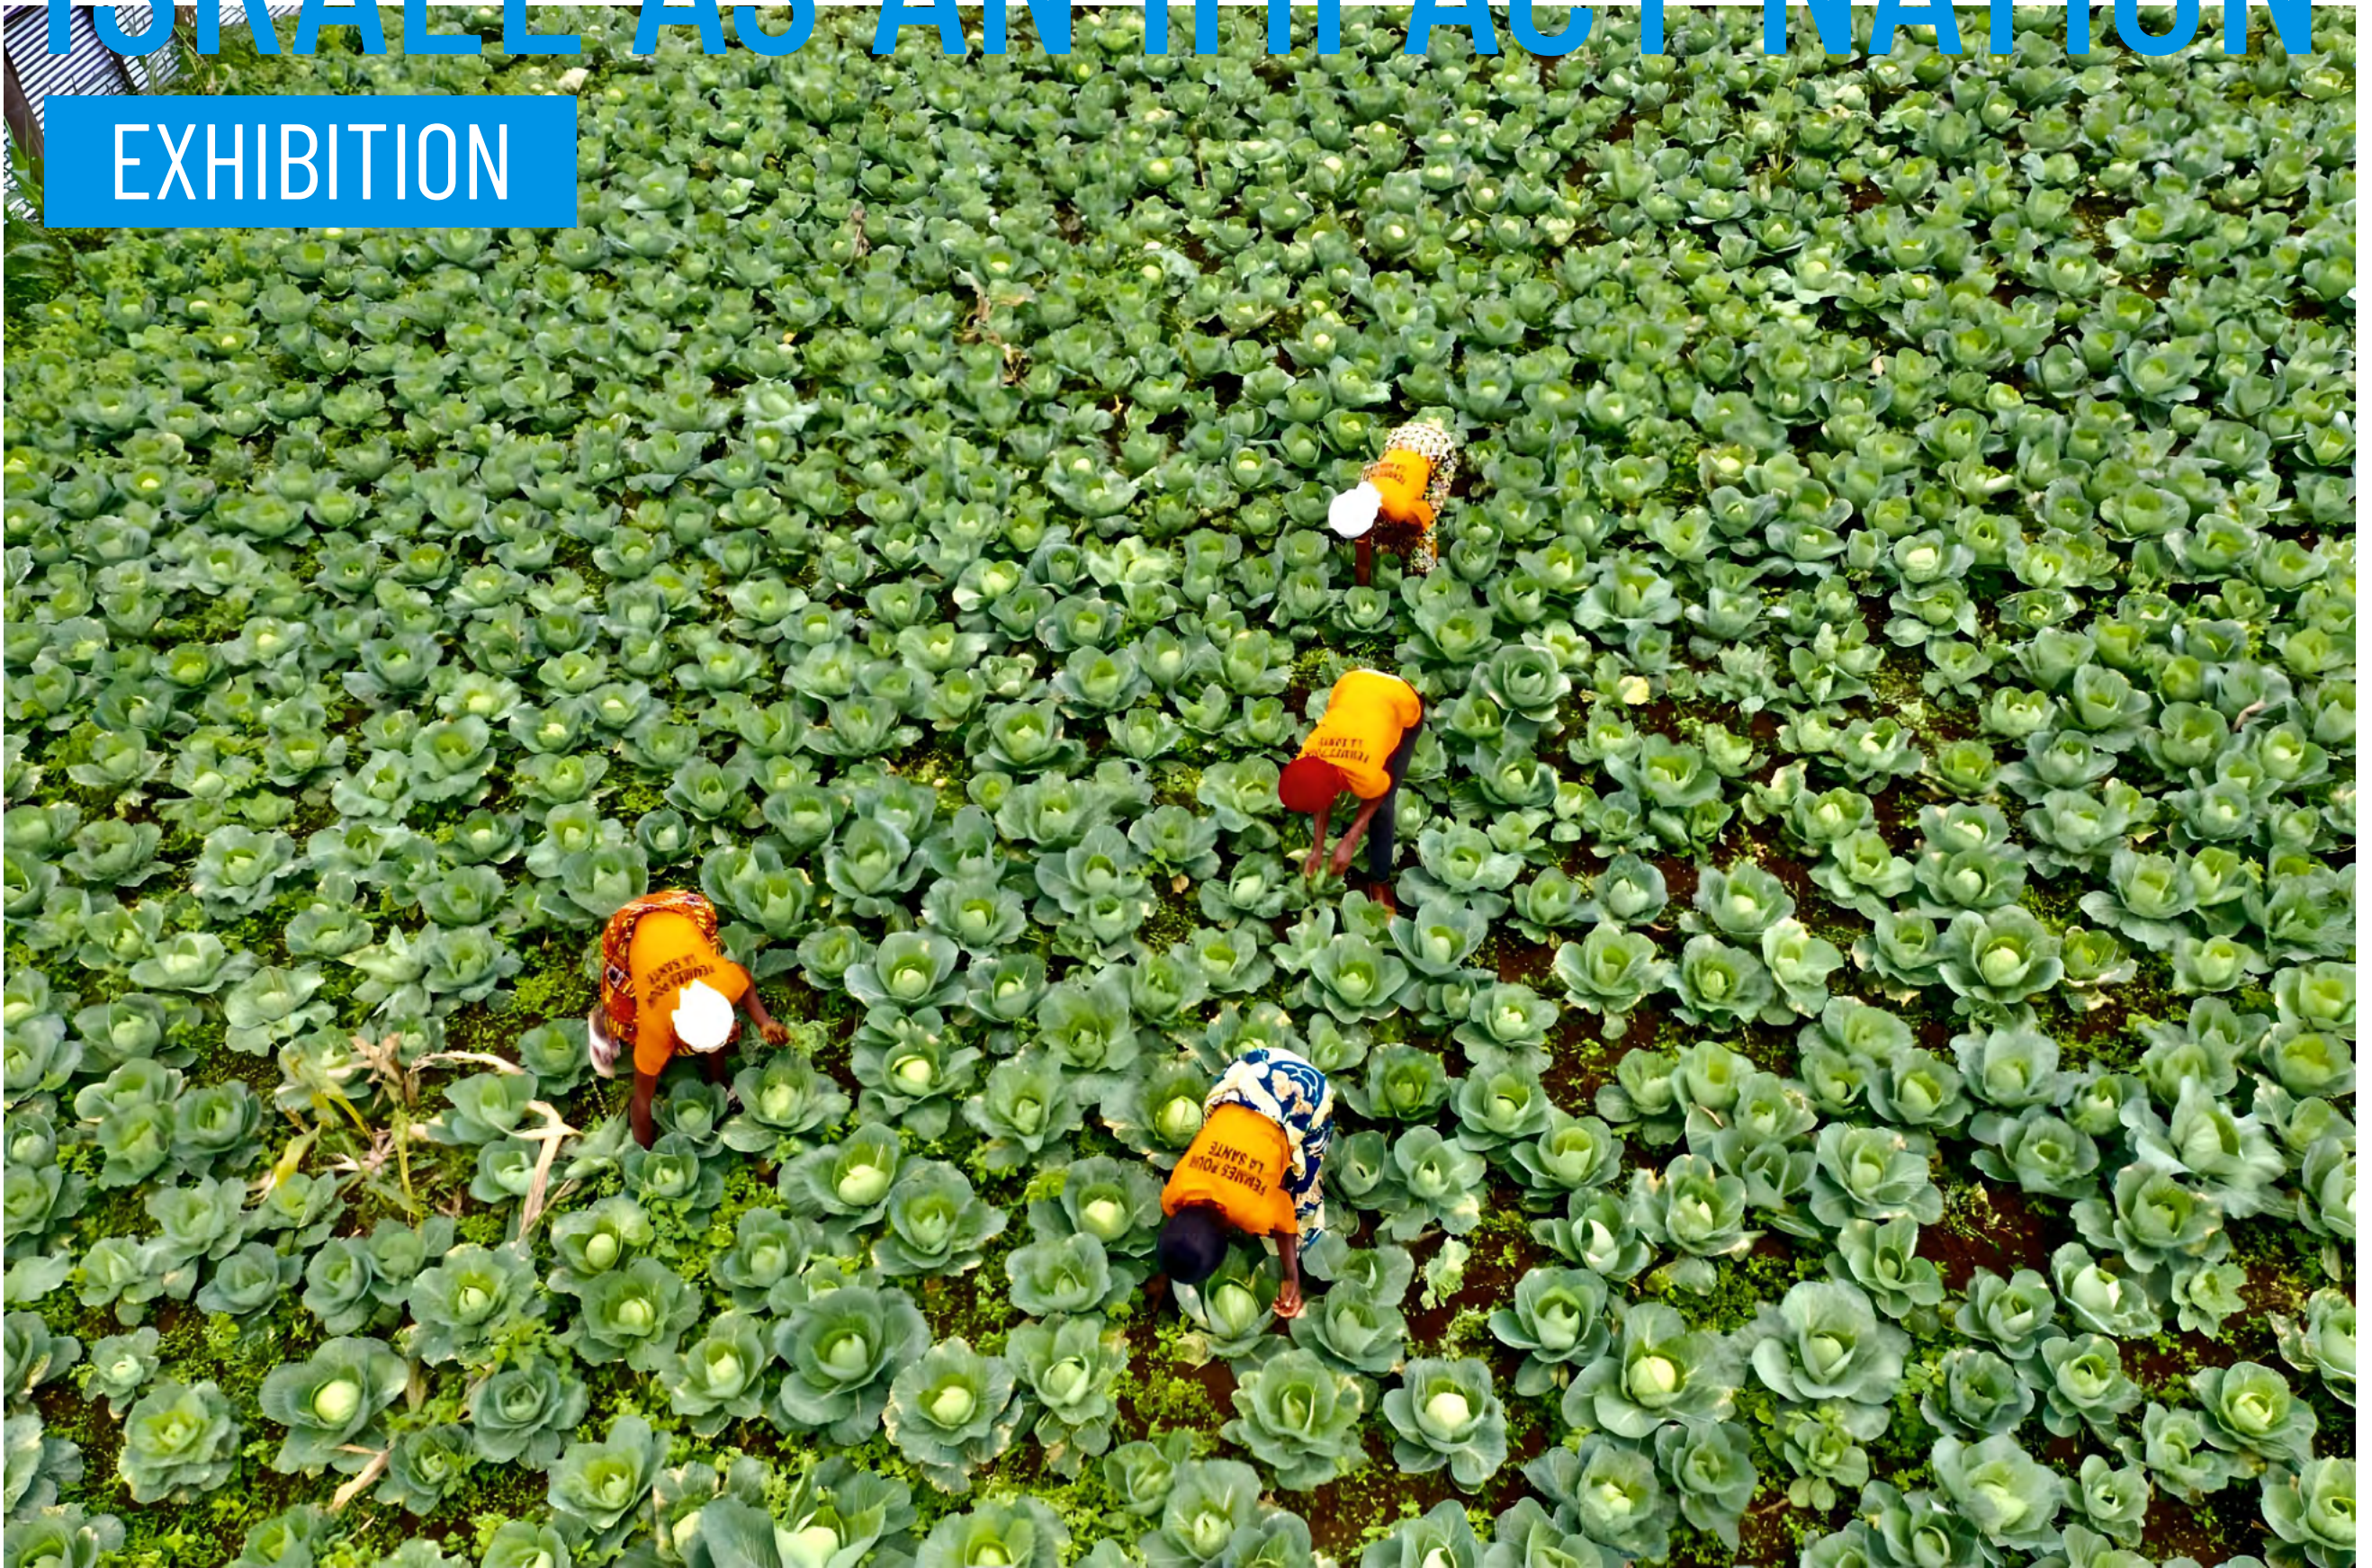

SID-Israel seeks to enhance Israeli engagement to address global challenges and contribute to a more sustainable and equitable world by contributing to the achievement of multiple economic, social, and diplomatic objectives.

**PHOTO
IS:RAEL**

PHOTO IS:RAEL is a non-profit organization dedicated to harnessing the power of photography for social change. By utilizing the language of photography as a tool for outreach, activism, and dialogue, it provides platforms for exhibition, research, and exploration of social issues. The International Photography Festival, its flagship annual event, change to The annual International Photography Festival, highlights global exhibitions alongside outreach programs from marginalized communities from across Israel, exemplifying its commitment to using photography as a universal language to bridge cultural, socio-economic, and gender boundaries.

ISRAEL AS AN IMPACT NATION

EXHIBITION

Through these inspiring images, we invite you to delve into Israel's extraordinary contributions to international development and humanitarian action.

Each photograph captures a moment of profound significance, a testament to unwavering commitment to making a positive impact on a global scale. From disaster-stricken regions to long-term development projects,

these snapshots reveal the resilience, innovation, and compassion that define Israel's engagement with the world.

Each image sheds light on a story of collaboration and the human spirit. Israel's efforts transcend geographical boundaries, serving as a powerful reminder of what can be achieved when people unite with a shared vision of a more equitable and sustainable world.

THE ISRAELI INTERNATIONAL DEVELOPMENT AND HUMANITARIAN COMMUNITY RESPONSE TO

THE OCTOBER 7TH HAMAS ATTACKS AND THE WAR IN GAZA

EXHIBITION

In the wake of the horrific Hamas attack on October 7th 2023, our hearts and thoughts are with those in southern Israel, and throughout the country. While our hearts may be broken, our spirit remains strong—a guiding light of hope for the renewal, repair, and restoration of Israeli society.

This exhibition stands as a testament to Israel's enduring strength in the face of anguish and loss. The purpose of this exhibition is to capture the essence of resilience and unity, portraying people coming together to provide support during the darkest hours of need.

The Israeli international development and humanitarian community, renowned for its swift response to crises

worldwide, redirected its efforts to support those affected at home. These NGOs brought their vast experience from around the world, collaborating with local Israeli communities, the private sector and the government to help as first responders and in longer-term resilience efforts in Israel.

As we hope for a year of renewal, repair, and restoration, let this exhibition symbolise the active and robust role of the non-government sector in shaping the future of Israel. Together, we stand resilient, united, and committed to overcoming the challenges that lie ahead.

Credit: Ronen Topelberg

ISRAEL-PREMIER TECH (ISRAEL CYCLING ACADEMY)

Following October 7th events, Israel's professional cycling team, "Israel - Premier Tech," participated in initiatives to support the community through cycling. They collaborated with the Israeli Cycling Federation to provide enjoyable biking activities for evacuated children and supported young riders who were injured and traumatized, and initiated worldwide cycling events to advocate for the release of those kidnapped.
